Tracy Carrington commented: Here's the original link - luckily I have made an screen grab of this to show the original title. Funnily enough FTUK is a domain name owned by Dominic Pickering CEO of MRI. Methinks there is something funny going on here.

Tracy Carrington commented: HI Marisa, Can you explain why this film has had its name changed? It was not caused 'disability awareness' when I made my first post - It was referenced to a company called 'Helping Hands' and how this company had been financed by Darragh MacAnthony - this all seems to have changed. What happened to the original title? This looks like a bit of a set-up to me - the comments were made in context to the original title of the film. Very strange.

will woods commented: How about this crook ,repaying all the money he conned out of tens of thousand,s ? this might ease his conscience ,bu it will not get me out of the debt,mri got me into , Why does he still use Charter Ruck to threaten victims ? all crooks come to a sticky end .

JAN BRAMWELL commented: the Heartbreak and financial ruin and untold loss that this man and this company have caused is now manipulated into seemingly 'good works' how utterly unforgiveable and despicable. Anyone reading this please go to www.mri-sg.org and see a truer picture:

Tracy Carrington commented: Helping hands group is not a charity - it is a registered business. Did Helping Hands create this video? I don't think so- this is just a cynical ploy by Mr MacAnthony to rewrite his biography using a seemingly worthwhile company - go to www.mri-sg.org to see the truth about this 'businessman'. Shameless.
